IMPORTANT GOVERNMENT ORDERS

REVENUE SECRETARIAT

Sanctions estimates aggregating Rs. 3,14,000 for the Improvement of Water Supply in Chitaldrug Town.

READ—

Government Order No. L. 7544-7—Ml. 110-39-66, dated the 1st March 1940, sanctioning a scheme of water supply to Chitaldrug Town at an estimated cost of Rs. 4·275 lakhs, the cost being distributed between the Government and the Chitaldrug Municipality in the ratio of 3 : 1 and a loan being granted by the Government to the Municipality to meet its quota of cost, repayable in 25 yearly instalments and carrying interest at 4½ per cent per annum.

2. Government Order No. L. 3805-8—Ml. 75-41-4, dated the 11th November 1941, sanctioning modified estimate for Rs. 4·275 lakhs for the above work.

3. Government Order No. L. 7154-6—Ml. 75-42-30, dated the 17th January 1944, sanctioning an estimate for Rs. 10,000 for supplying water to Chitaldrug Town by bore-wells as an experimental measure, instead of from the Kathral Tank as the latter scheme could not be worked out to completion consequent on the difficulty experienced in securing materials, etc.

4. Correspondence ending with letter No. 1125—8, dated the 17th November 1947, from the Chief Engineer for Irrigation in Mysore, recommending that the original scheme sanctioned in connection with water supply to Chitaldrug Town from the Kathrul Tank may be abandoned and the estimate closed with a net outlay of Rs. 1·75 lakhs and submitting for sanction of Government, two fresh estimates aggregating Rs. 3,14,000, one amounting to Rs. 2,00,000 for improving the water supply to Chitaldrug Town by means of bore-wells and the other to Rs. 1,14,000 for improving the distribution system therein.

ORDER No. L. 16352-8—Ml. 43-47-24, DATED BANGALORE, THE 27TH APRIL 1948.

The question of improving the water supply to Chitaldrug Town has been under the consideration of Government from the year [illegible] and an estimate for Rs. 4·275 lakhs was sanctioned for the purpose in Government Order No. L. 7544-7—Ml. 110-39-66, dated 1st March 1940 referred to in para 1 above. This scheme had to be abandoned as the required materials could not be secured owing to the prevailing war conditions. A scheme of water supply by means of bore-wells was tried, as an experimental measure, and for this pu an estimate for Rs. 10,000 was sanctioned by Goverr The scheme having proved more successful, the Dire Public Health got up an estimate in January 194 Rs. 1,34,000 for supply of water to Chitaldrug Town by of bore-wells and submitted it for sanction. Later estimate was revised to Rs. 1,50,000 based on the quc for this work. From the bore-wells under this scheme, 21,000 gallons of water per hour are expected to be p and it is stated that this quantity would suffice for a p tion of about 18,000 of this town.

2. Further, it was subsequently found that the bution system in Chitaldrug Town had consid deteriorated and with a view to improving this, an es for Rs. 1,14,000 was prepared by the Chief Engine Irrigation in 1946 and in this connection, distributior to the extent of Rs. 60,000 available under the F scheme was ordered to be made use of. The estim Rs. 1,50,000 referred to in para 1 above was revi Rs. 2 lakhs owing to an additional expenditure of Rs. on account of construction of quarters for staff at a Rs. 17,000 and the purchase of new pumping sets at a Rs. 26,000 and for payment of compensation to the ex Rs. 6,950. The two estimates thus aggregate Rs. 3,14,

3. The question of abandoning the Kathral s either temporarily or permanently was examined Sanitary Engineer and the Chief Engineer for Irrigatic was found by actual experience that the Kathral Ta not enough water for water supply purposes as well purposes of irrigation and that the tank had completel up in the year 1945. The Chief Engineer for Irrigation fore recommended that the Kathral scheme might be nently abandoned in favour of the bore-wells whic already been sunk and were functioning.

After a consideration of the matter in all its aspects, nment are pleased to sanction the two estimates aggre- g Rs. 3·14 lakhs referred to in para 2 for providing water ans of bore-wells and for improvement of the distribu- ystem in Chitaldrug Town, the cost being distributed en the Government and the Chitaldrug Town Munici- in the ratio of 3 : 1 as a special case. A loan will be d to the Chitaldrug Municipality to meet its share of penditure on the same conditions as before, *i.e.*, carrying st at 4½ per cent per annum and being repayable in 25 l instalments.

. Government also direct that the original estimate for y of water to Chitaldrug Town from the Kathral Tank sed with a net outlay of Rs. 1·75 lakhs as recommended e Chief Engineer for Irrigation, Government bearing 31 lakhs of the expenditure and the Municipality 44 lakhs in the above ratio of 3 : 1.

. The amount booked under the loan account of the ldrug Town Municipality stands at Rs. 59,000 as against unicipality's share of expenditure of Rs. 44,000 under athral scheme. Government direct that credit may, ore, be afforded to the Municipality to the extent of ,000 under the new scheme, thus reducing the present of the Municipality from Rs. 78,500 to Rs. 63,000 and the Government share of the cost amounting to 51 lakhs be met from the provision made in the State t for 1947-48 under "30 Grants—2 Improvement of Supply to Towns".

The Chief Engineer for Irrigation and the Deputy issioner, Chitaldrug, will take all necessary further in the matter immediately.

Government further observe in this connection that ntribution from the Municipalities for such schemes be at least as much as the Government contribution ıly in exceptional cases, Government would bear more ıalf the expenditure, the present instance being treated ecial case.

SYED ABDUL ALEEM, *Rev. Secy.*

DEVELOPMENT SECRETARIAT

ews the report on the working of the Department of Textiles for the year 1946-47.

espondence ending with letter No. B. 326, dated 7th January 1948, Additional Director of Industries and Commerce (Textiles) in forwarding the report on the working of the Textiles Department ear ended the 30th June 1947.

ORDER NO. D. 5596-9—I. & C. 83-47-5, DATED BANGALORE, THE 24TH APRIL 1948.

corded.

General.—The Administration of the Department ed to vest in the Director of Textiles till February, hen the post was abolished and the administrative of the Department was transferred to the Director of ies and Commerce. Two posts of Assistant Directors les were sanctioned—one for looking after the hand- roduction of cotton and silk goods and the other for after the technical side of the development of all including woollen goods.

Cotton Textiles Section.—This Section originally ed of 30 Yarn Depots and 9 Relief Centres, but under pansion Scheme sanctioned by Government during y 1946, the number of Depots and Relief Centres was ed to 60 and 10 respectively. Of these 50 Depots and lief Centres are reported to be working. For the ment and distribution of yarn, a separate institution he "Government Central Yarn and Cloth Depot" was hed and it distributed 2,178 bales of yarn, costing 24,600. A working capital of Rs. 5 lakhs has been d under the expansion scheme. The 50 Yarn Depots ring the year under review Rs. 7,63,800 worth of yarn.

4. *The Kolar Wool Spinning Centre.*—During the year under review the centre concentrated its attention on the manufacture of Druggets, pile carpets, kamblies, woollen coatings, etc., and also participated in some exhibitions held in and outside the State. The value of woollen and cotton fabrics produced and the value of goods sold amounted to Rs. 16,248 and Rs. 13,225, respectively.

5. *The Badanval Spinning Circle.*—With a view to meeting the growing needs of the centre, the working capital was enhanced from Rs. 1,00,000 to Rs. 1,80,000, but it is reported that full use could not be made of this amount, as many of the weavers had given up 'Khadi' weaving and taken to mill yarn weaving owing to it being more remunerative. Hence there was a great fall in the production of "Khadi". The Badanval Spinning Centre and its branches, however, did useful work in connection with the organisation and administration of Relief Spinning and Weaving Centres in the Chitaldrug and the Shimoga Districts. The total production of yarn and Khadi at the centre was 17,702 lbs. valued at Rs. 36,606 and 19,193 lbs. valued at Rs. 70,337, respectively. The value of Khadi sold amounted to Rs. 1,12,300. Certain Post-War Schemes for the development of the Khadi industry are under the consideration of Government.

6. *The Government Silk Weaving Factory.*—It is reported that 1,68,761 (95,124) yards of silk of various qualities and designs were produced during the year under review and the sales amounted to Rs. 13,45,317 (Rs. 14,16,367). The working of the Factory resulted in a net profit of Rs. 1,92,254 (2,05,590) during the year. Consequent on the cessation of the war and the removal of control over silk, the prices of the raw silk dropped considerably and the factory had to reduce its selling price. Under the post-war expansion scheme a sum of Rs. 6 lakhs has been sanctioned for the expansion of the Factory and negotiations for the purchase of the machinery are under way.

7. *The Government Dye House.*—The total quantity of yarn dyed during the year was 58,310 lbs. (45,500 lbs.) and the total profits realised amounted to Rs. 36,287 (23.607).

8. The working of the Department was generally satisfactory.

C. E. NORONHA, *Dev. Secy.*

EDUCATION SECRETARIAT

Issues orders in the matter of the Re-classification of appointments in view of the revision of the scales of pay of officials in the subordinate superior services of Government.

READ—

Official Memorandum No. 2267-2366—C.R.B. 7-35-1, dated 12th October 1935, issuing instructions in regard to temporary interim arrangements to be made in vacancies for which approved lists are issued.
